

Chinese Olympic Committee, Beijing, China
Logistics Planning, IT solution and implementation

A modernization according modern logistics requirements for these two warehouses is necessary to provide the best service for the Olympic Games in the year 2008. The China General Administration of Sport ordered the Fablog Logistics Consulting (Beijing) Ltd. for logistic concept and planning of the two warehouses to a Sportive Care Centre with high logistic service.

- To planning a high usage W/H
- To deploy a logistics system --Logis Web to manage these warehouses.
- Analysis of Olympics logistics software
- Analysis of existing Olympics logistics working flow

The logistic concept includes not only the planning of logistic equipment, transport, business processes and IT but also the support in construction planning.

Sportive Care Centre (SCC) ----- IT-SYSTEM
